A Year in Review: Top Reminders to Minimize Fraud

! PCM Recommends that you do NOT save your passwords on your computer via the websites you visit. Saved passwords give fraudsters easy access to your personal and financial information

! Sign Up for Fraud Text Alerts! Allow our debit card fraud department to notify members of suspicious activity via text message. Because most people will not answer phone calls from unfamiliar phone numbers, we encourage our members to take advantage of these convenient text alerts. If you are a debit card holder and have not yet received your enrollment text, please contact us to verify that we have your most current information on file.

! Make sure PCM has your current phone numbers and address as it is extremely important in fraud detection and prevention.

! Keep your Anti-Virus and Web Browsers up to date on your electronic devices.

! Log in to your Virtual Branch/Online Banking/Mobile App account or be sure to look at your statements every month. Not all fraud is detected by PCM, therefore you should be monitoring your accounts as we are limited on dispute time frames.

! Use CardValet™ a great app we offer to members for free! CardValet™ allows you to control the behavior on your PCM Debit and Credit Cards. It will also send notifications of transactions and allow you to turn the cards off or on at any given time. Search for CardValet™ in the App Store or Google Play!

! Please contact PCM if you confirm fraud on your PCM Debit Card or to report it lost or stolen. **For Credit Cards call (877) 314-9354.** We have Identity Theft resources available to you as well.

! Always be sure to be aware of your surroundings when using your card. ATM's have had skimming devices on them so be sure to just wiggle the insert a little to make sure it is secure and that the area is well lit at night.

! Free trials are not really FREE! Although you are only paying for shipping and handling, you will also be paying for the product weeks later but you may not be aware of it. **Read the fine print** as these companies are not in violation of charging your cards for any additional charges and are virtually undisputable.

! Do not give out any personal information when you receive a phone call, especially from an unknown company. Don't fall for the scam of the IRS calls or the computer companies saying that your computer was hacked.

! 1-877-253-8964 or 1-800-279-2674 - PCMCU Fraud Detection numbers. Please save these numbers in your phone as we do have this service in place 24/7. When they call, they will not ask you for any personal info as they already have your information, all they are looking to do is verify your transactions.

Add these numbers to your contacts!
